

# Johnny Appleseed's Hat

Johnny Appleseed wore a cooking pot for a hat.

Make your own hat. Follow the directions.

1. Put the aluminum foil-shiny side down-on the work surface.
2. Lay tag board in the center of aluminum foil sheet.
3. Fold the foil around the tag board on all sides. Seal with tape, if necessary.
4. Fold the black strip in half to form the pan handle.
5. Staple the handle at one end of the tag board.
6. Form a circle (pan shape) with the shiny tag board (raw edges of the aluminum foil on the inside).
7. Staple the ends together to fit the size of your head.
